PROFILE INFO ▪

Experienced and proactive Zoho Developer with over 2+ years of proven expertise in IT development. I specialize in optimizing workflows, functions and automating processes, Developed and contributing to over 5+ client projects. My proficiency extends to Zoho products and third-party applications.

EXPERIENCE ▪

Thoughtlogik Technology Solutions Pvt Ltd.
Associate Consultant

Jan-2023 - Present

- Successfully managed and contributed to over 5+ client projects, focusing primarily on streamlining workflows to automate processes for the modules and data.
- Developed custom functions to streamline callback processes, enhancing efficiency and enabling seamless integration with two distinct applications in Zoho products (**Zoho Creator**, **Zoho Campaigns**, **Zoho Flow**, **Zoho Analytics**, **Zoho CRM**, **SalesIQ**, **Zoho Sign**).
- Demonstrated proficiency in integrating systems across different platforms like Third-Party (**Xero**, **WordPress**, **Figma**).
- Implemented **REST API** solutions like enabling seamless Invoke method to **CRUD** the Records and enhancing overall system functionality.
- I developed extensions in **Zoho CRM** to optimize workflow efficiency. Specifically, I designed an extension to automatically populate CRM fields with precise address values extracted from the map view, based on user input.
- Maintained detailed documentation for each project and task completion, ensuring thorough comprehensive records and facilitating seamless project management and knowledge transfer. Committed to continuous learning and staying updated with the latest technologies.

Thoughtlogik Technology Solutions Pvt Ltd.
Trainee

Jul - Dec - 2022

- During my trainee period, I embarked on an intensive learning journey with Zoho products.
- I gained hands-on experience in Zoho Creator and utilizing various Zoho features such as Widgets (**HTML**, **CSS**, **JavaScript**, **jQuery**), which enabled me to build functional, UI Design and user-friendly solutions.
- Furthermore, I explored Zoho Workflows for automation, Dashboards for data visualization, and Zoho Analytics for insightful reporting, expanding my skills and understanding of the Zoho ecosystem.
- Successfully completing two demo projects: "**Inventory Management**" and "**Student Database with Dashboard**". For the "inventory management" project, I developed a streamlined system using Zoho Creator, integrating Deluge Script for backend functionalities. This solution enabled efficient tracking of inventory levels, automated reordering processes, and provided detailed reports on stock movements. By leveraging Zoho's suite of tools,
